

Wildan Khaustara Wijaksana

Software QA Engineer

Bandung, West Java | +6283116993234 | Wkhaustara@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Software QA Engineer with over 3 years of experience in manual testing, automation testing, API testing, performance testing, and system monitoring for web-based applications. Skilled in developing and executing test scenarios, identifying defects, supporting regression testing, and collaborating with cross-functional teams in Agile/Scrum environments. Experienced with Python, Selenium, Playwright, Pytest, JMeter, K6, Gatling, Jira, and Kubernetes log monitoring across government and enterprise digital service projects.

EDUCATION

POLITEKNIK POS INDONESIA

Bachelor of Informatics Engineering (GPA: 3.33/4.00)

Bandung, Indonesia

Sept 2016 – Sept 2020

WORK EXPERIENCE

Torche Indonesia

Software QA Engineer

Bandung, Indonesia

August 2022 – Present

- Designed and executed test cases based on business requirements, user flows, and acceptance criteria for government and enterprise web applications.
- Performed functional, regression, positive and negative, and bug-fix validation testing to ensure application quality and release readiness.
- Developed and maintained automated test scripts using Python, Selenium, Playwright, and Pytest, while conducting API and performance testing using JMeter, K6, and Gatling.
- Reported, tracked, and validated defects through Jira while collaborating with developers, system analysts, UI/UX designers, and project managers.
- Contributed as a technical expert in tender beauty contest activities by preparing technical materials and presenting application procurement concepts to Pokja and end users.

SKILLS

TECHNICAL SKILLS

Language: Python, SQL

Manual Testing: Test Case Design, Test Scenario Development, Functional Testing, Regression Testing, Positive/Negative Testing, Bug-Fix Validation, UAT Support.

Automation & End to End Testing: Selenium Pytest, Playwright, Test Script Maintenance.

Api & Performance Testing: JMeter, K6, Gatling, Locust, Load Testing, Response Time Validation.

Tools & Monitoring: Jira, Git, Kubernetes Logs, Pod Monitoring, Defect Tracking.

Release Validation: Regression Test Execution, Bug-Fix Verification, Release Readiness Assessment, Go/No-Go Recommendation, Production Deployment Validation.

PROFESIONAL SKILLS

Analytical Thinking, Detail-Oriented, Cross-Functional Collaboration, Communication, Responsiveness, Documentation, Presentation

SELECTED 5 PROJECTS

1. SDP – Sistem Database Pemasarakatan

Aug 2022- Des2024

Web-based correctional services application for prisons (Lapas) and detention centers (Rutan) across Indonesia

QA Tech stack: Manual Testing, Automation, Performance Testing, Monitoring.

2. SIPPT BSKJI – Sistem Informasi Pelayanan Publik Terpadu

Des 2023-Present

Web-based one-stop service portal that enables businesses and the public to access various industrial service offerings more easily.

QA Tech stack: Manual Testing, Automation, Performance Testing.

3. BGN (BAPPENAS) – MBG AI Chatbot & AI Text-to-SQL

Sept-2025

A web-based AI solution featuring a chatbot and natural-language-to-SQL capability for data retrieval and analysis

QA Tech stack: Manual Testing, Performance Testing.

4. SDI – Perencanaan Daerah SDI

Jan-2026

A web-based regional planning system that supports planning document management, proposal submission, validation workflows, and AI-assisted validation against RPJPN, RPJMN (Nasional)

QA Tech stack: Manual Testing & UAT.

5. PRODUCT – Sistem Perencanaan Daerah Berbasis AI

April 2026-Present

Served as a System Analyst for a web-based regional planning system by gathering and analyzing business requirements, mapping planning workflows, defining user roles and system requirements, and preparing documentation for AI-assisted validation of planning documents, programs, activities, and sub-activities against RPJPD, RPJMD, RKPD, RTRW, and RDTR

S.A Tech stack: Requirement Gathering, Business Process Mapping, Use Case Design, User Role Definition, Functional Documentation, Figma, Database Design, Jira.

CERTIFICATIONS

BNSP

Certificate of Completion - Software Analysis

Certificate: 1552/CoC/LSP-INF/05/2024

in May 2024 – May 2027
